Special considerations for registered contestants to grant digital certificates:

CONTESTANT NO	NAME	CALLSIGN	REMARKS
68	ROM	VU2RUM	Super encouragement
95	RAMESH	VU3VRL	Encouraging by giving more than 22 contest nos to contestants.
26	ANIL WESLEY SAMUEL	VU3CGM	QTH : Kolar, Rx report -

Total Number of Contestants registered	103
YL Stations	6
Dx Stations (Beyond BBMP)	8
Total number of Logs received	59

Observations noticed on evaluation by VU2JXM Rajan, Jt. Director, IIH & Jury member:

1. All the top twenty have contacted the STAR of the contest
2. Most of the contestants could not reach all the net controls to have contact on simplex.
3. Although many of the contests have sent their log reports in the prescribed format, few have reported in their own way and few have sent it in a modified version. However, all the entries have been accepted.
4. Some of them have commented that the repeater frequency was occupied / or many interactions were going on and they were not able to participate but they were copying these stations and reported. Such entries were rejected.
5. The pity is, the time spent by many of them was less than two hours, they would have shifted to the simplex frequencies and could have made few contracts.
6. The duplicate entries were not counted for the score.
7. Some of them have made self evaluation which was encouraging.
8. Over all, the log report submitted by the participants were well reported.
9. Two stations have submitted the log without giving their transmitted RST, hence they have been considered as "check log".

Our jury members have decided to honour certificates to all the contestants who have submitted the logs, you can download from IIH website www.indianhams.com

IIH congratulates all the participants and other Hams who have encouraged the contestants on giving contest numbers and reports.

Thank you all,

73
